

Brief description of my work.

My online portfolio is a very minimalist design overall. I provided gaps in the text for the words to be easier to read and overall, more appealing to the eye.

The heading of my page is Maroon as it's my hometowns main colour, so it holds a special place to me.

Ive added boxes on the top of the page that when clicked bring you immediately to the section of the page that the box says it will.

Overall, my site is easily accessible and easy to navigate.
